Ability to analyze

Teamwork spirit

English

Frontend web

As a frontend web programmer, I have over three years of experience in developing user-friendly and responsive web applications using various technologies and frameworks. I am proficient in React TS, MUI, Tailwind CSS, Redux, Swiper JS, and Formik. I have also worked with Next TS, MobX, and other popular libraries to create dynamic and interactive web pages. I have a strong knowledge of web design principles, accessibility standards, and cross-browser compatibility. I am passionate about learning new skills and keeping up with the latest trends in web development.

Education

Bachelor's student in computer engineering
(active member of the university's computer engineering scientific association)

2022 - Present

Work experience

I have a history of cooperation with Jahrom library, where I developed Single-page and Responsive Web application for their online services. I used React TS, MUI, Tailwind CSS, Redux and other popular libraries to develop an online exam system and a certification system, which provided online assessment and verification of skills and knowledge.
